THE DNA OF QUALITY

The DNA of Baracuda Technology

Zodiac is the global leader in suction-side pool cleaning solutions. With a 25 year heritage of design ingenuity, Zodiac continues to evolve its core technology with innovative new products that build upon its longstanding legacy of engineering excellence, reliability, and value.

BARACUDA DIAPHRAGM TECHNOLOGY

At the core of all Baracuda disc cleaners is the revolutionary diaphragm technology, which enables silent, reliable cleaning, and ultimate durability.

IT IS IN THE CODE

Our industry-leading global engineering team delivers cutting-edge solutions to exceed the needs of discerning pool owners world-wide. From our innovative one moving part technology, to premium-grade materials and construction, Baracuda cleaners are built to last.

Climbs 90° sheer walls and easily negotiates tight corners.

BARACUDA®
X7
Quattro™

Form and Function with Substance to Spare.

The Baracuda X7 Quattro™ is an inspired blend of sleek design and advanced technology resulting in unparalleled performance. From its innovative QTC® Disc System (Quattro Traction Control) to a completely re-engineered "one moving part" Dura Life Diaphragm, the X7 Quattro™ stands alone as the cutting edge solution for pool cleaning. Powered by your pool's existing filtration system, the X7 Quattro™ has the agility to climb 90-degree sheer side walls and the mobility to navigate pool surfaces faster, quieter and more efficiently.

Riveting Power and Agility

1. QTC® DISC SYSTEM

The Quattro Traction Control System consists of four independent flexible discs that allow maximum adhesion on uneven surfaces and in tight corners.

2. HYDRO WINGS

This unique stabilizer enhances navigation, creates a downward force for additional traction and cleaning efficiency.

3. FLEX CONNECTOR

Flexible hose attachment that minimizes the influence of the hose on the cleaner movement, thus improving coverage.

THE ANATOMY OF THE X7 QUATTRO

4. DURA LIFE DIAPHRAGM

Designed with over-molded reinforcement for the ultimate in diaphragm durability.

5. TILT ACTION RUDDER

The body of the X7 Quattro® is uniquely designed to swivel fully from left to right allowing for a new level of agility and mobility in navigating tight areas in the pool.

6. TWIST LOCKING HOSE

Provides secure connection and reduces vacuum loss.

BARACUDA®

d.u.o™

ALL SEASON CLEANING POWER

The Baracuda T5 Duo™ is a disc-style suction-side pool cleaner that features Baracuda's one moving part technology and patented Dura-Life™ Diaphragm for maximum durability and quiet operation. The cleaner delivers maximum cleaning coverage with two independent discs for greater pool adhesion and flexibility, while the adjustable wheel deflector enables fluid navigation around corners, steps and ladders. It is engineered to allow unimpaired cleaning over lights, main drains and wall fittings that may hang up other cleaners.

Engineering that exceeds expectations

DEPENDABLE ALL SEASON PERFORMANCE

1. DURA LIFE DIAPHRAGM
Designed with over-molded reinforcement for the ultimate in diaphragm durability.

2. DUO DISC SYSTEM™
Two independent discs for greater pool adhesion and flexibility.

3. ADJUSTABLE WHEEL DEFLECTOR
Wheel Deflector enables fluid navigation around corners, steps and ladders.

4. TWIST LOCKING HOSE
Provides simple connection and reduces vacuum loss.

5. QUICK CONNECTOR
Enables quick secure attachment to cleaner head.

6. FINS
Engineered to allow unimpaired cleaning over lights, main drains and wall fittings that may hang up other cleaners.

BARACUDA®
G3

1. Long-Life™ Diaphragm

Superior, reliable one moving part technology. No gears, wheels or flappers for simple, silent operation and low-cost maintenance.

2. 36-Fin Disc

Ensures maximum adhesion on all pool surfaces, and eliminates hang-ups on lights, drain covers and fittings.

3. Wheel Deflector

Enables enhanced agility for negotiating tight corners.

4. Patented Quick-Release Cassette

Provides quick and easy access to the diaphragm for simple maintenance.

Baracuda G Series Cleaners

The Baracuda G Series pool cleaners deliver efficient, effective cleaning performance that is compatible with low-speed pumps for maximum efficiency. The cleaners quickly inhale small and medium debris while thoroughly cleaning pool floor, walls and steps.

G Series cleaners include Long Life Hoses that are durable and scuff-resistant, suitable for all pool surfaces, along with a FlowKeeper™ Valve. This compact self-adjusting flow control valve automatically regulates water flow, ensuring peak performance even with low-speed pumps.

In just three simple steps, the G Series cleaners will be ready to clean your pool. They come preassembled in the box. Simply attach the disc, wheel deflector, and hose, and connect to the skimmer or dedicated suction line. No tools or special plumbing required.

BARACUDA® G2

1. Durable AIB Diaphragm

Simple and reliable one moving part technology.

2. Finned Disc

24-fin disc allows cleaner to move freely over lights, fittings and ladders.

3. Wheel Deflector

Enables enhanced agility and thorough pool coverage.

The G3 automatic pool cleaner is to be used in in-ground pools only. Use of the G3 in any other application or type of pool will impair its function and void the warranty. For sale and use in the United States and Mexico only. This pool cleaner is not warranted or guaranteed outside the United States or Mexico. Baracuda and Flowkeeper are registered trademarks of Zodiac Pool Systems, Inc. 2 Year Limited Warranty against manufacturing defects and wear and tear. Even the hoses are covered.

The G2 automatic pool cleaner is to be used in in-ground pools only. Use of the G2 in any other application or type of pool will impair its function and void the warranty. Baracuda is a registered trademark of Zodiac Pool Systems, Inc. 1 Year Limited Warranty against manufacturing defects and wear and tear. Even the hoses are covered.

ZODIAC®

Aboveground Cleaners

BARACUDA® RANGER®

Affordable and dependable cleaning.

The Ranger is an affordable, dependable automatic pool cleaner that will thoroughly clean your aboveground pool—removing dirt, debris, bugs, twigs, leaves, and even pebbles. Requires no extra plumbing or additional energy cost. Installs in minutes and comes pre-assembled in the box, just attach the hose and start cleaning. Flowkeeper™ Valve automatically regulates water flow, ensuring peak performance. The Ranger is built to work quickly, effectively, and quietly.

Extra Large wheel Deflector

Helps the Ranger from getting caught on steps, ladders or in corners so it can keep on cleaning your pool.

Quick Release Cassette & Diaphragm (inside)

The Ranger features one operational moving part. No gears, wheels or flappers means simple operation and maintenance.

AG Disc

Allows the Ranger to glide effortlessly along the bottom of your pool, up the sides and around steps, cleaning your whole pool.

Tested to work in some of the world's toughest pools.

The Zodiac Wahoo has only one operational moving part—the diaphragm. No gears, wheels or flappers means simple operation which ensures peak performance, maximum power and low-cost maintenance. Automatically removes dirt, debris, bugs, twigs, leaves, sand and even pebbles.

Flowkeeper Valve—compact self-adjusting flow control valve automatically regulates water flow, ensuring peak performance even with lower horsepower pumps.

Quiet

Quietly and thoroughly cleans your aboveground pool

Simple

Preassembled and installs in minutes without tools

The Zodiac Leaf Catcher®

IN LINE LEAF AND SEDIMENT FILTER

collects debris before it reaches the pump basket to prevent clogging.

Zodiac Leaf Catcher has a greater capacity for leaves and debris than the average pump basket. Manufactured from clear UV-resistant materials so you can see when the Zodiac Leaf Catcher needs emptying. Easy to clean because only the canister and basket needs to be handled. With the unique T-Trap Connection, all vacuum hoses remain connected, while the Zodiac Leaf Catcher is removed for quick and easy cleaning. The unique design of the Zodiac Leaf Catcher uses the cleaner's own water flow to create a vacuum within the trap, compacting and holding more leaves and debris, so there's less emptying. Convenient handle for easy cleaning and emptying and built-in drain plug to empty water.

Suitable for most suction pool cleaners.

Other Accessories

Adjustable Wheel Deflector

Enables fluid navigation around corners, steps, and ladders. Fits easily on all disc cleaners.

Twist-Lock 45 degree Elbow

Enables Baracuda Twists-Lock hose to easily connect to dedicated cleaner line safety fittings.

Additional Hose

Add additional length to your Baracuda cleaner hose to accommodate larger pools. Available in 1 meter sections.

ENGINEERING THAT EXCEEDS EXPECTATIONS

ZODIAC®

Zodiac is the global leader in suction-side pool cleaning solutions. Pioneer of the revolutionary Baracuda® diaphragm technology, we continue its solid commitment to quality and design ingenuity. Zodiac delivers unsurpassed reliability and value through its simple and innovative designs that make it the preferred brand of pool owners world-wide.

THE BARACUDA T5 DUO™ WORKS SEAMLESSLY WITH ALL ZODIAC PRODUCTS

The Zodiac AquaLink® RS Control System manages our complete line of technologically advanced products. The Zodiac system is designed to create a carefree backyard paradise — enhancing the overall pool and spa experience by delivering performance and reliability through technology.
